

### Tribute to Sally Coulter - AB Community Ed. Program Administrator

Sally Coulter came to Acton-Boxborough Community Education in June, 2000, from the Newton Community Education program, where she had been the child/adult program coordinator. She took the position of Program Administrator and has done a great job recruiting instructors and broadening the offerings for our arts, crafts, language and cooking classes, private music lessons, coordinating our very large youth basketball program, as well as the very successful Summer Escapades program.

We wish Sally well as she embarks on the next chapter of her life. She will be getting married this summer, and plans to keep busy with her many interests, including remaining active in politics, traveling, perhaps substitute teaching, catching up with her long reading list, and enjoying the life that retirement brings. She will be missed.
